

Baseline Performance Assessments

"Understanding your business the way it really is"

Serving manufacturers struggling with growth and profitability.

10-Point Operations & Production Review

This on-site 10-point operations and production performance assessment includes interviews with select management stakeholders, survey of line workers, general plant observations, review of key systems, financial metrics and reporting processes. You'll receive an objective third party written assessment of the good, the bad and the ugly, and solutions on how to fix it.
