

# Lean Shop Makeovers

*"The secrete to getting more jobs done faster"*

Serving manufacturers struggling with growth and profitability.

**Reduce rework by 60%**  
**Increase profit by 20%**  
**Shorten turn time by 40%**

This on-site engagement is designed to provide you with everything necessary for a company-wide transformation. You will receive training in Lean flow manufacturing and support in implementing 5S best practices, ensuring that your operations are organized, efficient, and profitable.

Additionally, you will be introduced to the **Lean Shop Management System (LSMS)**, a comprehensive production management solution that will help you maximize your shop's capabilities and turn it into an efficient production powerhouse.
